

## Presentation and Presenting Confidently – Knowledge Sharing by Pn. Haslinda Hashim CMLHS

Date: 2 May 2018 ( Wednesday )

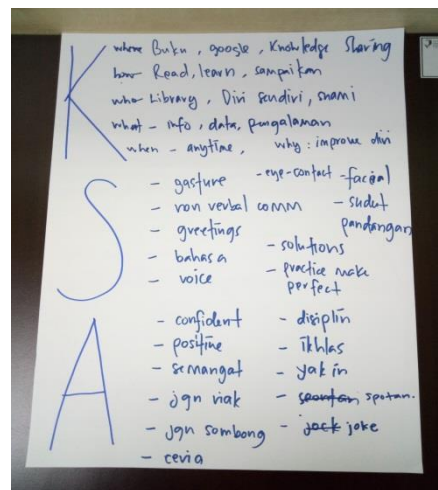

Time: 8.00am – 11.00am

Location: Bilik Seminar 2, Perpustakaan UMP Pekan

For 2018, the Knowledge Management Unit has selected some of the senior staff to present during knowledge sharing session. They are required to present a topic based on their own working experience in their unit. To that, Puan Haslinda Hashim, a lecturer from CMLHS was invited on 2nd May 2018 by the Knowledge Management Unit for a Knowledge Sharing session with the Library staff. The topic discussed was on Presentation and Presenting Confidently.

To be able to present in front of an audience requires more than just a topic. A presenter should have the knowledge of the topic, skills, experiences and references. The presenter should be able to engage the participant with solid introduction, and maintain it with mixed ability of skills, knowledge, humour and positive attitude throughout the session.

After the session one of the participant feedback is that having confident and staying calm would help during a presentation. Another participant says that a presenter should have more practice to ensure a smooth presentation. The last participant says that a presenter must know how to attract the participants attention and engage them during the session.
