Perpustakaan Universiti Malaysia Pahang (UMP) e-Resource System

QR Code: <https://ezproxy.ump.edu.my>

Welcome To e-Resource UMP Lib
Your electronic resource medium for students and researchers

The e-Resource of Perpustakaan UMP provides comprehensive access to full-text e-journals available at the Library. The portal allows you to search for online databases, e-journals, e-Books by title or browse title by subject. The e-Resource provides both on-campus and off-campus access to the Library's electronic Resource.

**Viewing Tool**

Many publishers use DRM; their standards can only be viewed if you have first downloaded FileOpen. FileOpen associates the standard with your computer, so you can only view it there. You can download FileOpen from the dashboard or using this link.

https://plugin.fileopen.com/?type=Filter&name=FOPN_foweb

[Installers](#) [FAQ](#) [Removal](#) [Contact Us](#)

FileOpen Client Installers

FileOpen Systems provides a set of free plug-ins and viewers that can be used to access documents encrypted with the FileOpen software. These include plug-ins for Adobe Acrobat™ and Reader™, and standalone viewers for handheld platforms. If you landed on this site while trying to open PDF document, that means the publisher requires you to install FileOpen plugin to access the file. Note that installation of the FileOpen Client software is not sufficient to enable opening of documents, the publisher's permission is also required. [Click here for plug-in uninstall/removal instructions.](#)

FileOpen Plug-in Installers for Windows

Windows Installers

FileOpen Exe Installer [997] (recommended)

MSI Installer for 64-bit systems [997]

System Requirements

64-bit Windows 10 or later, Server 2016 or later

Adobe Reader/Adobe Acrobat 9.0 or later

Which installer should I choose?

We recommend the **.exe installer** for normal interactive installations as it will install the correct version for your platform.

The **.exe** and **.msi** installers are equivalent. We provide **.msi** installers for network deployment by system administrators.

For 32-bit and/or older versions of Windows use the 0996 Exe Installer

For enquiries or support on access get live chat help from UMP librarian for more information. <https://umplibrary.ump.edu.my/>
