The objective of this session is to give users an overview of the UMP library's facilities, services, and information retrieval mediums including the library catalogue (e-Find), Ezproxy, UMP IR, eCOLLIB and e-book platform (e-Lib).

The briefings explained the library's services, such as loans, returns, reservations, and renewals of book lending periods. Also explained are on Ask A Librarian services,, education classes for users, inter-library loans or document supplies, and inter-branch loans, such as PASIR and PARU. Furthermore, there are also information retrieval mediums such as library catalogues or eFind for printed materials, Ez-proxy is a remote access for electronic resources such as full text journals, e-journals, e-books, standards, previous year's examination papers, Citation Indexed Journals (CIJ), and trial access to the database. UMP IR platform provides access to UMP's scholarly publications, while eCOLLIB is an online archival repository mostly for theses and undergraduate project papers with e-Lib providing access to UMP's e-books collection.

The screenshot shows a Zoom meeting interface. The main window displays a web browser with the UMP Library eFind catalog. The browser's address bar shows the URL: efind.ump.edu.my/cgi-bin/koha/opac-detail.pl?biblionumber=95316&query_desc=%2Cword%3A%20civil%20engineering. The catalog entry is for the book "New materials in civil engineering / Sandeep Chaudhary, Nagesh R. Iyer, Dookie Kim, Pijush Samui". The authors are listed as "By: Chaudhary, Sandeep [author.].". The book cover image shows a modern building. The browser's top bar includes various icons for Microsoft 365, Gmail, Calendar, Google Keep, Affida, UMP, SEDAR, Turnitin, Mendeley, BlogAffidaUMP, eLib PNM, and eLib UMP. The Zoom meeting controls at the bottom show a timer at 32:38 and a list of participants: DW, S, N, H, SO, H, MI, F, NR.
